WEBINAR

Pacific Power California Wildfire Webinar

Tuesday, March 19, 1-2 p.m. PDT

FREE Webinar

Join Pacific Power's wildfire experts to find out how we're increasing safety across our California service area during wildfire season and year-round.

Attend the free event online to:

- Hear how we're adapting to this new era of extreme weather in the areas of meteorology, wildfire prevention and emergency management.
- Find out how we use advanced monitoring tools and hear about our ongoing work to strengthen our system.
- Learn how Public Safety Power Shutoffs, emergency de-energizations, enhanced safety settings and other methods are used to reduce the risk of wildfire and keep communities safe.
- Get answers to your wildfire safety questions during a Q&A session.
